

Momentous Institute

Momentous Institute is dedicated to innovative mental health services, education, and professional training to strengthen children, families, and communities.

Our mission is anchored in the unwavering belief that high-quality mental health services should be accessible to all, regardless of their circumstances. This belief drives our commitment to training the next generation of mental health providers through our APA-Accredited Doctoral Internship and practicum experiences.

APA-Accredited Doctoral Internship in Clinical Psychology

Our Doctoral Internship program focuses on acquiring specific competencies of advanced clinical skills and professional identity, guided by the ability to cultivate a posture of self-reflection and multiple ways of knowing in one's psychology practice.

We emphasize considering individual, cultural, societal, and contextual factors throughout all aspects of training activities.

Interns have rich opportunities to:

- ✓ Provide clinical services to children, adolescents, and adults
- ✓ Gain experience in individual, family, and group psychotherapy
- ✓ Conduct comprehensive psychological assessments with school-age children
