## 2016 APA Annual Convention

Denver, Colorado | August 4–7

### 171 – Ethics and Test Interpretation: Measurement Matters

CE Credits: 7

Enrollment Limit: 50

#### Workshop Description

This is an intermediate workshop designed to improve test interpretation practices by increasing the knowledge and application of measurement principles (reliability, validity, utility, norms) to tests/assessment methods frequently used in psychological assessment. Ethical standards and scientific principles provide the foundation, and specific research methods for empirically supported interpretation practices are discussed for tests of intelligence, psychopathology, achievement, and other measures. Participants will be better able to critically evaluate psychometric information provided in test manuals, interpretation guides, the Mental Measurements Yearbook, and the extant literature.

**Leader:** Gary L. Canivez, PhD, Eastern Illinois University, Charleston, IL

**Date:** Sunday, August 7, 2016

**Time:** 8:00 a.m.-3:50 p.m.

**Location:** Sheraton Denver Downtown Hotel, 1550 Court Place
