Dear Director of Clinical Training:

I am excited to announce the second year of the High Plains Psychology Internship Consortium (HP-PIC) to your faculty members and students. The consortium is comprised of four agencies located in Northern Colorado, Eastern Colorado, and Western Nebraska, offering a unique opportunity for interns to advance their clinical training in rural and frontier settings. HP-PIC is currently accepting applications for three full-time intern positions; one located at Converge Day Treatment Center in Fort Morgan, CO, one located at Educational Services Unit #13 in Scottsbluff, NE, and one for our newest member, the Colorado Center for Assessment and Counseling in Fort Collins, CO. Our consortium has developed the internship to be in alignment with the profession-wide competencies required by the APA's Standards of Accreditation. As such, HP-PIC provides a range of clinical and didactic experiences that represent the necessary depth and breadth required for future professional practice within rural school and clinical settings. Applicants with a background and interest in working with children and families, as well as providing services in rural, underserved settings are a particularly good match for HP-PIC.

HP-PIC currently participates in APPIC's National Match as a non-member. We have recently applied for membership and expect to hear back in November. Prospective interns are encouraged to submit applications online through the APPIC website, noting the application deadline of December 1, 2017. For more information, we welcome you and your students to visit our website at [www.highplains-pic.org](http://www.highplains-pic.org). You may also feel free to contact us directly with any questions about the application process and/or training program.

Kind regards,

A handwritten signature in blue ink that reads "Robyn S. Hess". The signature is fluid and cursive, with the first name "Robyn" and last name "Hess" clearly legible.

Robyn S. Hess, Ph.D., ABPP  
Training Director, High Plains Psychology Internship Consortium
